Recommended Course of Study

This is a general outline of a four-year high school plan. Students do not have to remain strictly in one “track.” Schedules are created each year to insure that each student is taking the proper courses and earning the proper number of credits.

- To qualify as a **sophomore**, students must have accumulated at least **6** credits by the start of school in the fall.
- To qualify as a **junior**, students must have accumulated at least **12** credits by the start of school in the fall.
- To qualify as a **senior**, students must have accumulated at least **18** credits by the start of school in the fall.

Regardless of credits, Aurora Christian School does not allow “early release” or graduate students early. Please contact the guidance office if you have questions regarding your student’s individual course of study.
